

Good afternoon Sagamore Families,
Sagamore has a wonderful opportunity to participate in a program called Kids in Seats!

Kids in Seats Program Description

This organization works with schools throughout the United States to provide them with thousands of free tickets throughout the year to major sports and entertainment events. We do not control how often we get tickets, or the number of tickets offered to us.

When Sagamore gets notified of free tickets, a message will go out to check your emails. If you are interested in attending the specified event, you must fill out the google form attached to the email. Your families name will then be entered into a lottery. Ticket winners will be chosen randomly, and the selected families will be notified. Any other costs for the event such as parking fees or items inside the event, will be the responsibility of the family. We will only provide the actual ticket to be admitted to the event.

We are excited to be part of this program. There are some rules that we must follow to be able to continue being invited to participate in the program-

1. The Sagamore student **MUST BE** one of the people that attend the event.
2. Please make sure before you enter in the lottery that this is an event your family can attend. The program tracks the tickets, and they cannot go unused,
3. If you win and unexpectedly cannot attend the event, you must return the tickets to us. You cannot transfer them to another family. If our tickets, go unused we are in jeopardy of not receiving any more tickets in the future and not being able to participate in the program.

Be well.
